Stable Teacher Salary Program Is Due in Legislature

Education Committee Will Give Report, Bills Are to Be Presented in Both Houses

Albany, N. Y., Feb. 20 (AP)—A permanent program of higher salaries for the state's 77,000 public school teachers, effective next July 1, will be adopted by the Legislature, an official source disclosed today.

Governor Dewey's special Committee on Education will submit the program to the Legislature next week, and bills to implement it will be introduced.

Decision to put through a permanent salary adjustment program at the current session of the Legislature is expected to relieve pressure from teacher organizations and their sympathizers to obtain such action before final adjournment next month.

Whether it will result in cancellation of a teachers' strike at Buffalo, scheduled to start Monday, was not known here.

The permanent program will supplant the \$32,000,000 temporary one enacted last month, under which raises of \$300 to \$800 a year were provided for teachers for a 16-month period ending March 31, 1949.

The change will require a considerable increase in state aid to education.

July 1 will be fixed for starting the permanent program so that boards of education can plan their budgets in advance of the new school year.

It was predicted authoritatively that the committee would recommend a statewide minimum salary of \$3,000 a year, which is the minimum prevailing under the temporary program.

The New York State Teachers' Association, which claims a membership of 44,000 upstate teachers, has been pressing for a state-mandated minimum of \$2,400 and eight annual \$150 increments.

The New York city teachers' joint salary conference, representing more than 30,000 teachers, has been demanding a \$2,700 minimum and an increase of \$150 on top of the \$300 granted under the temporary program.

Henry J. Reina Dies at Hospital

Was General Sales Head for Electrical Business on Broadway

Henry J. Reina, 36, of 110 Steuben street, general sales supervisor and head of the roofing and siding departments of M. Reina, electrical appliances store, 86 Broadway, died at Kingston Hospital yesterday after a short illness.

Born at Stroudsburg, Pa., he was the son of Joseph and the late Angelina Marquis Reina. Survivors include his wife, Antonette Marzullo Reina, one daughter, Angela, his father, Joseph of Brooklyn; two brothers, Manuel of Kingston and Frank of Brooklyn; three sisters, Minnie Pappas, Angela Cassi, Brooklyn, and Josephine Falconi, Scranton, Pa.

The funeral will be held from the Henry J. Reina funeral home, 27 Smith avenue, Saturday at 10:30 a. m., and at St. Mary's Church at 11 a. m., where a high Mass of requiem will be offered. Burial will be in St. Mary's cemetery.

Friends may call at the funeral home at any time. The store on lower Broadway will be closed Saturday.

Won't Support Strike

Buffalo, N. Y., Feb. 20 (AP)—The Buffalo Men Teachers' Association (A.F.L.) will not support the strike called for February 24 by the Buffalo Teachers' Association. Defining the men union's stand last night, Norman C. Paul, president, said his group would maintain "strict adherence to the constitution of the American Federation of Teachers, which contains a 'no strike' clause." Paul estimated the union's membership at 200, most of whom are vocational school teachers.

Terror Is Resumed in Holy Land; One Call Tells Why Acts Occur

Jerusalem, Feb. 20 (AP)—Blasts near the port city of Haifa ripped the Iraq Petroleum Company's pipeline early today after a night of renewed terror punctuated by explosions, mortar fire and the chatter of small arms.

A woman speaking English and claiming to represent the underground Jewish organization Irgun Zvai Lomai telephoned foreign correspondents and said "We want to inform you the operations carried out last night were done by our soldiers in reply to the fact that Jewish refugees have been expelled from their homeland to which they had returned."

Armored cars patrolled Haifa, from which uncensored Jewish immigrants sail to Cyprus and detention.

The renewed violence, after comparative quiet in Palestine for several weeks, came as the Jewish and Arab Press attacked the recently announced British plan to turn the whole problem of the Holy Land over to the United Nations.

Receives Third Warning In the all-Jewish city of Tel Aviv, the government at public relations office announced it had received its third bomb warning in 24 hours. A search of the building failed to uncover any explosives.

The extent of the damage to the pipeline was unknown, an official communiqué said. The bulletin said the line was severed at two places in the Haifa area—near the village of Indur and near the Consolidated Refineries, Ltd., on Haifa Bay.

The Iraq Petroleum Company, an international group, maintains pipelines for about 800 miles from Kirkuk in northeast Iraq through Trans-Jordan to Haifa. One branch goes to Tripoli in Lebanon.

Station Is Attacked Earlier, a nearby Elin Shemer, a Royal Air Force station was attacked with mortars, machine-guns and light arms. A counter-attacking R.A.F. regiment was credited in an official announcement with driving off the attackers. Three home-made mortars, 12 empty mortar cases, a Beretta pistol and numerous pieces of gelignite, an explosive, were found in the vicinity, the announcement said.

Officials said the attack opened late last night and lasted about 20 minutes. Damage was small and there were no casualties. The R.A.F. unit is one of those which had taken part in searches for unrefined immigrants.

Before the R.A.F. station was attacked, two electrically-operated mines were exploded in the fashionable Mount Carmel section of Haifa just as two heavy War Department vehicles were passing through. Officials said one vehicle was slightly damaged.

To Ask Training Awaits Inquiry End

Washington, Feb. 20 (AP)—President Truman said today he will send a message to Congress advocating universal training as soon as his committee has completed an inquiry.

Mr. Truman at the same time told a news conference the question of a message dealing with extension of the draft was still under consideration.

He made this comment when a reporter said there was a report around the War Department there would be no request for drafting authority.

F.B.I. Will Issue Warrant for Ladd, Chief Boss Says

Gun Toter, 17, Who Hid in Local Hotel Room Is Questioned at Court House

A federal warrant for the arrest of Roland Ladd, 16, of Mechanicville, who is wanted by the Kingston police for felonious assault, will be issued by the F.B.I. tomorrow, Chief of Police Ernest Boss said today.

Ladd has been a fugitive from justice since Monday night, when he fired a shot at Officer Carl Janowski while running away from the police patrolman. A seven-state police dragnet had not apprehended the former industry inmate up to noon today, although police officials said a break in the case might come before the day had ended.

Ladd was described today by Chief of Police Boss as a tough youngster who served a term at the industry school and allegedly had committed a series of burglaries in the Mechanicville area.

Noonan Questions Chief of Police Gus Noonan, of Mechanicville, was in Kingston yesterday to question Ladd's companion, John Bruce McWhinnie, 17, also of Mechanicville, who was captured by local police and is held in the Governor Clinton Hotel.

Chief Noonan was assisted in questioning McWhinnie, who is held in the Ulster county jail without bail, by Detective Wesley Cramer of the Kingston police department, and County Investigator Clayton Vredenburg.

Ladd and McWhinnie were suspected by the Mechanicville police of pulling a \$600 job in that city. They are believed to have gone to Florida for several days and then returned to this area to continue their career of crime, the police say.

McWhinnie, who barricaded himself in a room occupied by Mrs. Elizabeth Cheers, a resident, was captured on the rear fire escape of the hotel by Robert Chesterman, a hotel guest, at gunpoint and taken in custody by Officers James Burns and Earl Schoonmaker. Chesterman, who has a license to carry a pistol, was assisted by the police in their search of the hotel after McWhinnie had dashed away from Officer (Continued on Page Thirteen)

Baruch First On New List For Atom Job

Washington, Feb. 20 (AP)—Senator Bridges (R-N.H.), today listed 10 men—among them former Secretary of State Byrnes, and A.E.L. Secretary George Meany—as acceptable to him for the chairmanship of the Atomic Energy Commission.

David E. Lilienthal, President Truman's nominee for the post, definitely is not acceptable to Bridges. The New Hampshire senator has called Lilienthal "an extreme left winger" and an "apologist of Russia."

The first man listed by Bridges as an alternate nominee is Ernest Martin Hopkins, president emeritus of Dartmouth College at Hanover, N. H. The senator issued a statement saying these other men also would be "acceptable" to him and various senators taking part in the campaign to block Lilienthal's confirmation.

Bernard M. Baruch, adviser to presidents and former American representative on the United Nations Atomic Energy Commission. Former Senator Robert M. La Follette of Wisconsin. Secretary of the Navy James Forrestal.

Lawrence F. Whittier, president of the Boston Federal Reserve Bank. John L. Sullivan, under secretary of the navy. Lewis H. Brown, chairman of the Johns Manville Corp. Henry M. Whiston, president of Brown University at Providence, R. I.

Says They're Outstanding Bridges expressed the opinion that all the men he named are outstanding. Great Americans, whose names in the past demonstrate that there can be no doubt of their future course of action in the interest of this country were they entrusted with the responsibility involved in chairmanship of the Atomic Energy Commission.

Although several of Lilienthal's opponents have suggested that his name be withdrawn, President Truman has declared he has no intention of doing so and will support him all the way.

Lilienthal's supporters claim to be picking up strength for the latest Senate roll-call. A Democratic Policy Committee official told reporters today that the Senate now is inclined toward confirmation. However, Senator Wherry (Neb.), the Republican nominee, contended there still are "grave doubts" about the outcome.

Meanwhile, Chairman Hickenlooper (Iowa), of the Atomic Energy Committee, considering the nomination said he is driving to close the public hearings by Saturday.

"It seems to me the field of investigation and testimony is about complete," Hickenlooper told newsmen. "While we are willing to bring in any witness who is necessary to testimony bearing on the nomination, it looks like we're coming to the end of this thing."

The hearings started January 27.

Agreement Ends Dispute Based on Two Budget Bills

Legislators Acknowledge Suggestion for Changes Affecting 60,000 State Workers

Albany, N. Y., Feb. 20 (AP)—An agreement today to amend two budget bills affecting 60,000 state workers ended a dispute between Governor Dewey's administration and the State Civil Service Employees Association.

The association had claimed that the bills, changing the Field-Hamilton Career Law, would give "dictatorial" powers to the salary standardization board and the budget director.

The measures provided a simplified schedule of grades and salaries for civil service workers and grant overtime pay for work beyond 40 hours a week.

The amendments, which Dr. Frank L. Tolman, association president, said would "considerably restrict any exercise of dictatorial power," are to be introduced in the legislature tomorrow. They are expected to be passed next week.

Under the new overtime bill, for which \$11,000,000 is provided in the budget:

1—Overtime pay would be considered salary in computation of pensions (the original bill provided that it would not).

2—The budget director would be permitted to deny overtime only to persons considered ineligible because of "the nature of their duties" or because their work hours can not be recorded accurately, such as administrators or field workers.

3—The rate of overtime pay would equal the regular rate. (The original bill stated that the overtime pay would not "exceed the rate of compensation otherwise payable.")

The other amended measure would:

1—Raise the minimum starting salary from \$1,200 to \$1,500, as provided in the original measure. (The present minimum is \$1,535, counting emergency bonuses.)

2—Fix a \$2,280 salary "floor" and positions requiring professional, administrative or technical training. (A \$1,800 floor existed under the Field-Hamilton law but was not written into the statute.)

3—Preserve what Dr. Tolman termed "safeguards" of the old law by assuring that the minimum pay for a job will be at least equal to the maximum for the next lower in grade, if such is now the case.

More May Go to Moscow

Moscow, Feb. 20 (AP)—U. S. Embassy source said today the United States may still have a chance of increasing the quota of American correspondents coming to Moscow to cover the four-power conference of foreign ministers, which convenes March 10. This informant said the Soviet government had not yet replied to a recent American request to boost the total from 20 to 52. The original request of the U. S. State Department was for 71. The absence of a reply was interpreted at the embassy as meaning the Russians still were trying to find a way to accommodate more correspondents.

Sally Williams Will Get \$302 She Found

"Lucky seven-year-old Sally Williams of 7 Schryver Court, this city, is going to get \$302 for her very own."

She picked up the money, rolled with a rubber band, while walking on a street in New York with her mother last Oct. 28, and they took it to a police station.

The \$302 and \$7,250 worth of unclaimed jewelry will be given to seven finders next Wednesday by the police department property clerk, the Associated Press reports.

Sally is the daughter of Mr. and Mrs. Donald Williams.

Walsh Craft Corp. Is Leaving City

Subsidiary of Arts Concern Manufactured Frames at Local Plant

A small Kingston industry is preparing to move from its Ann street plant this week because it lacks skilled workmen in one highly specialized branch of operation.

The Walsh Craft Corporation, which is a subsidiary of the Rudolph Lech Fine Arts Inc., 225 Fifth avenue, New York, announced today through Donald R. Allen, president of both organizations, that preparations for moving out of the Ann street building are nearing completion. The firm expects to be out by March 1.

Allen said that the plant at 47-49 Ann street formerly a warehouse for M. Reina, and earlier for Stock & Cordis, had employed from 10 to 15 men, all of whom, must now make other plans. It had been in operation two years.

The decision to move, Allen said, followed the death of Fred Herzog of East Kingston last January 15. The plant has since been unable to find anyone with sufficient knowledge of the finishing process used on the type frames produced there.

Virtually all of the woodworkers employed at the plant were from the Kingston area.

Shortage of Box Cars Hits Shipments to American Press From Canada, Williams Says

New York, Feb. 20 (AP)—C. Winston Williams, general manager of the American Newspaper Publishers Association, today advised newspaper publishers to warn their readers that curtailment of size and limitation on the use of paper was possible at any time because of disruption of shipments of newsprint from Canada.

"Publishers must spread out the limited amount of newsprint from the Dominion over a longer period," Williams said. "Mindful of maintaining reasonable stocks on hand in the city of publication."

"There are not enough box cars in Canada and the U. S. to care for all needs, including priority allocations for grain movements."

Asks 'Valiant Fight' Against Restrictive Laws; New Jersey Man Testifies

Strike Is Scheduled Says 250,000 Will Quit Jobs in April Unless Raise Granted

Washington, Feb. 20 (AP)—The National Federation of Telephone Workers, preparing for a country-wide strike in April unless its wage demands are met, today opposed legislation to forbid collective bargaining on an industry-wide basis.

Joseph A. Byrne, the federation's president, told the Senate labor committee that only by negotiating on such a scale can the independent union deal satisfactorily with what he called the "monopolistic" American Telephone and Telegraph Co.

Byrne appeared with his prepared testimony after calling on the C.I.O. and A.F.L. to join with his union to "fight valiantly" against any restrictive laws a nationwide telephone strike might precipitate.

"The N.E.T.W. has served notice that its 250,000 members in every state will walk off their jobs 'on or about' April 7 unless they get a wage boost. They are asking \$12 a week more."

Opposition to pending labor legislation also was voiced by Edward G. Wynn, chairman of the independent union of New Jersey. He told the Senate committee the majority of the bills it is considering would "ignite a campaign to spread the flames of Communism among legitimate and responsible labor unions."

"Give the Communist party punitive legislation such as outlawing in these bills," Wynn asserted in a prepared statement, "and within a brief period the same congressmen who sponsor this legislation will be begging the ex-leaders of labor, perhaps a little too late, to take the Communists away from their doors."

Can't Produce Paper For the telephone workers, Byrne said a ban on industry-wide bargaining "cannot produce industrial peace, but only chaos and servitude." He asked that (Continued on Page Ten)

Woodstock Youth Held as Forger

William James Dixon, 16, Allegedly Took Checks From Dr. Perlman

William James Dixon, 16-year-old Woodstock youth is being held in the county jail for grand jury action on a charge of second degree forgery for the cashing of allegedly stolen American Express checks from the home of Dr. Paul Perlman in November while he was employed as a "baby-sitter" in the Perlman home at Woodstock.

Dixon was arrested by Corporal Metzger and Trooper Rink of the State Police after they had traced the theft to Dixon who cashed the checks in order to purchase a rifle and ammunition from a West Hurley, resident, Corporal Metzger said.

According to the Troopers Dixon had been employed by Dr. Perlman, Kingston dentist, to sit with the Perlman children while he and Mrs. Perlman were out on errands. It is charged that on November 6, last, Dixon took six express company checks valued at \$20 each. These checks were cashed with Arthur Relling of West Hurley to purchase a rifle for the sum of \$115.

The Troopers stated that Dixon had made a statement to them in which he admitted the theft. The checks were endorsed with the name of John Winthrop, a name which the defendant told the Troopers just came to him when he wanted to endorse the checks.

Following his arrest Dixon was taken before Justice of the Peace Percy Bush of the town of Ulster, where he waived examination and was held for grand jury action on the forgery, second degree, charge. He was brought to jail.

Corporal Metzger said Dixon had previously been involved in difficulty involving entrance to a New Paltz property.

Bryan Says Red Secrecy Is To Cover Extent of Beating

Titusville, Pa., Feb. 20 (AP)—Russia's so-called "Iron Curtain" across Europe parted with surprising ease for Julien Bryan, director of the International Film Foundation of New York—but he insisted the reason for Soviet secrecy is to keep the world from knowing "what a beating they took" in World War Two.

Bryan told a reporter he not only pierced the imaginary barrier but spent months behind it, traveling 3,000 to 4,000 miles for the United Nations Relief and Rehabilitation Administration, and taking pictures of nearly everything he wanted.

Bryan flatly predicted that before the end of 1948 Russia would be welcoming tourists from America and other countries with open arms.

A native of Titusville, Bryan came here immediately after his return to the U. S. Tuesday, to be at the bedside of his 84-year-old father, S. S. Bryan, retired hardware merchant. The elder Bryan died yesterday.

In an interview given before his father's death and authorized for release today, Bryan said he was convinced "after five months in Italy, our job to assure stability on the continent is to see that Europeans don't starve."

Bryan found Russian doors open to him, he reported, because he traveled as a paying guest of U.N.R.R.A. He said he had a definite purpose that Russians "could understand and approve—to photograph U.N.R.R.A. food, agricultural machinery and clothing arriving in Russia, and where and how it was being used."

Ellenville and Montela Dairymen Hold Meetings

The Ellenville and Montela Local of the Dairymen's League Cooperative Association held their

annual meetings recently to elect officers and discuss current League operation.

Max Lonsdale was re-elected president by Ellenville members who gathered in the Horace Hill Hotel, February 13. Harold Sashin

was elected vice-president and succeeds Morris Sashin; Herbert Brustein was named secretary.

At the Montela meeting, which

was held February 14 at the Baptist Church Hall, Low's Corners, members re-elected Van W. Furman, president; Arthur Burch, vice-president; Harold Merritt, secretary-treasurer and John George was elected publicity rep-

resentative.

K. R. Leach, manager of the country plant and quality control department, was the speaker at the Ellenville meeting. Director Grover C. Guernsey, Schoharie, and Division Representative Clyde

I. Barber, Erie, Pa., addressed Montela members. These speakers discussed the activities of the League during the second half of 1946 and showed how its attempts to raise the price of milk provided an additional 20 million dollars to

New York milkshed producers. They explained that only a milkshed-wide organization could have the strength and influence, the facilities and leadership to bring about such results.

Dinner was served at both meetings.

State to Erect Uniform Cattle Crossing Signs

Albany, N. Y., Feb. 20 (AP)—Uniform, state-manufactured "cattle crossing" signs will replace home made warnings along New York highways next spring, the Public Works Department said today.
The signs will be located at points now used for cattle crossings, the department said, "and may be relocated from time to time at the requests of farmers."
The action is part of the department's program to remove all private and unauthorized signs from highway rights-of-way.

Liquidation Order Hits 56 Wealthy Jap Families

Tokyo, Feb. 20 (AP)—Allied headquarters said today it would liquidate 1,165,000,000 yen (more than \$77,000,000) of the assets of Japan's Zaibatsu families to break their stronghold on the nation's finance and industry.
The Holding Company Liquidation Commission said personal securities of 56 of these families, which controlled the greater part of Japan's industries, would be

put on public sale to "scatter them as widely as possible."
"Some of the wealthiest and most influential people in Japan" will be affected by the new move, said Berkeley Henderson of Cleveland, Ohio, official headquarters observer at the commission meeting.
The families will be reimbursed in government bonds which cannot be cashed for ten years and cannot be used for collateral.
Many months ago, the commis-

sion took 6,000,000,000 yen in assets of Zaibatsu holding companies.

His Aim, Prohibition

Washington, Feb. 20 (AP)—Rep-

Bryson (D.-S.C.), who sought vainly to outlaw hard liquor during the war, served notice today he will renew his campaign for national prohibition. What he needs right now, he told a reporter, is a good reason. "The reason which furnished the cause of action for my former legislation no longer exist," Bryson declared. "I sought to outlaw liquor during the war period in order to conserve scarce materials and to use the manpower in more effective work. Now that the war is over, I must find a new cause of action."

KINGSTON, NEW YORK, FEBRUARY 20, 1947

FAT SALVAGE

A six-month intensification of Fat Salvage Is the plea of the Department of Agriculture, whose January fats and oils forecast indicates even shorter supplies of inedible fats and oils during the first half of this year, than during the corresponding period of 1946.

If every family in the United States saves and turns in to the meat dealer just one pound of used cooking fat per month during the next six months, it will bring current supplies up to just about the amount of fats and oils available during the first half of last year.

All of us remember how critical the situation was a year ago. It is worse now.

There are excellent reasons for reiterating the necessity for every woman to save and turn in her used fats. First, if she doesn't, the production of hundreds of items which require fats and oils in their manufacture, in addition to soap, are going to be adversely affected by the supply picture. Second, at current prices, every housewife can cut down her butcher bills by saving and turning in her used fats.

Remember last summer when the great problem was whether to get meat or a new car? They appeared to cost about the same, and were about equally unattainable. Now there is meat and new cars are coming up. All things pass, but there is always a new crisis.

MODERN FOREST HERMIT

A helicopter flew into a 3,000,000-acre Adirondack wilderness and brought out a 65-year-old hermit. Bearded and dressed in animal skins and hunting clothes, the recluse had lived in the woods alone more than 30 years. He was landed first in Saranac Lake, N. Y., and then taken on to New York City to appear at the National Sportsmen's Show.

It was his first ride in an airplane, his first real contact with a modern metropolis since World War I. He will be as interested in "civilization" as it will be in him. The chances are the racket and the crowds, the hurry and the glitter, will be hard on the man-of-the-woods. He'll probably be glad to return to the simple rigors of his forest. And a lot of city folk who meet him at the show will wish they could go back with him.

General Marshall has told the nation to put security first, and this advice applies to individuals and families and business institutions as much as it does to the nation as a whole.

PUERTO RICO

North Dakota's Senator William Langer has introduced a bill for the second time in the senate to give statehood to Puerto Rico. At the same time the growing closeness between the island government and the United States is shown in the announcement by the new commissioner of education for Puerto Rico, that English will become a universal study in the public school system.

As plane flights between Miami and San Juan become more common, Puerto Rican news becomes of greater interest to the United States. A country that a short time ago was comparatively little known now seems a close neighbor indeed. Whether it is ready for the responsibility of statehood is still a question requiring careful and intelligent consideration.

The curious thing to most Americans is that the temperatures which have brought on the British crisis are barely below freezing. What would they say to a Montana winter?

STRANGE SHORTAGE

Some shortages are really tough. A foreign language newspaper in a metropolitan city has had to announce that, because of the scarcity of newsprint, the paper will hereafter carry eight pages instead of six. They could get only rolls of a certain width that prints eight pages. When the shortage eases,

'These Days'

By George E. Sokolsky

BUREAUCRATIC EXPANSION

The Federal Radio Commission, now the Federal Communications Commission, was organized in 1927 with the object of eliminating the jamming of the air waves by unlicensed use of them. It was a simple bureau for a simple purpose.

In 1927, the Commission consisted of a Chairman, four Commissioners, a Secretary and perhaps ten other persons, and its operating expenses could be covered with \$75,000. The total appropriation for the period from July 1, 1927, through July 31, 1928, included an allotment of \$50,000 from the Department of Commerce and an additional appropriation of \$25,000, making a total of \$75,000.

Since then, this Commission has been growing, although its duties and obligations under the law have expanded nothing like the expansion in personnel and costs. The Commission now includes supervision of all common carriers by wire of radio; that is, telephone, telegraph, radio, and any new devices in these fields.

Radio licensing has been expanded by Administrative fiat into radio policing, for the Commission is authorized to "proscribe the nature of their service, assign frequencies, and make regulations to carry out the purposes of the act." To the bureaucratic mind, this means infinitely more than it does to the legislator, and it requires more personnel and a greater expenditure of money.

In the first six months of 1942—the first six months of the war—the regular employees numbered 733 and those taken on for national defense brought the total to 2108. In 1943 the total increased to 2133. The number was reduced somewhat in 1944, 1945, and 1946. In the last year the total number of employees was 1345.

The cost of running the government bureau of the FCC mounted steadily. In 1934, the Federal Radio Commission became the Federal Communications Commission and by 1936 the appropriation was \$1,525,000, slightly more than fifteen times as great as the appropriation ten years before. Of this sum, \$1,276,891, or 80 per cent of the total, was for personal services.

In the first six months of the war, the appropriation was \$5,655,924. The highest appropriation was reported for the fiscal year ending June 30, 1943, a total of \$7,777,435. The reduction in expenditures has been slight but in proportion to the reduction in personnel. Personnel absorbs the greatest part of the FCC funds.

It is important to note that the FCC operates nothing. At most it is a policing organization. It produces no programs, broadcasts nothing, plays no part in the actual work of the networks or the broadcasting stations. The British Broadcasting Corporation, on the other hand, is a government monopoly in broadcasting actually putting on all the programs in England and to the Colonies, to India, the United States, and all over the world. It does an extremely involved operational job.

I have not seen 1946 figures for B.B.C. but for the year ended March 31, 1945, B. B. C. showed a total expenditure of more than \$5,500,000 sterling, or about \$34,165,992; but whereas 80 per cent of the FCC appropriation yearly goes for personnel, the British expend only a total of 44.83% for salaries and wages. The larger share of this, or 20.64%, covers the cost of programs, an item which the FCC does not have to consider as it provides no programs and pays for none. Therefore, we may say that 24.19% of Great Britain's own and operated broadcasting system appropriations goes for operating and administrative expenses, whereas 80 per cent of FCC goes to personnel engaged only in administration.

Again, it is interesting to note that the National Broadcasting Company, the largest operating unit in the United States, actually engaged in providing network programs, employed in 1943 only 28 more persons than the FCC. The personnel of the National Broadcasting Company is fairly stable numerically. Its present total is 2,606. Television activities have been added recently.

It is generally estimated from previous years that B. B. C. personnel is greater than the number of employees of all four American networks.

The following table shows the trend of the increase in FCC:

	Personnel	Appropriations
1928	57	\$ 102,181*
1936	733	1,525,000
1941	1,388	4,129,340
1943	2,133	7,777,435
1946	1,345	5,489,900**

THAT BODY OF YOURS

By James W. Barton, M. D.

INSULIN GREATEST GIFT TO MEDICINE

"Many physicians can recall the pathetic state of children with diabetes in the days before discovery of insulin; their life expectancy was two to three years. Who has forgotten patients completely invalided from severe diabetes who were kept alive to die from starvation. Diabetic coma (unconsciousness) almost invariably meant death. Surgery in diabetes was a terrible hazard."

I am quoting from an editorial in the Journal of the American Medical Association on the anniversary of the discovery of insulin. It was twenty-five years ago that Banting and Best, working at the University of Toronto, isolated the substance (insulin) of the pancreatic gland that lowered the amount of sugar in the blood and this extra, or saved, sugar was made useful to the body instead of being thrown away in the urine.

While the whole world mourned the death of Banting during research work in World War II, the discovery of insulin is considered by physicians the greatest gift to medicine of modern times. Insulin does not cure diabetes, nor has insulin decreased the number of cases of diabetes present in the world today, but diabetes do not die of diabetes if properly treated. The increase in the number of diabetic patients who now survive has been extended by fifteen years since the discovery of insulin.

As we think of all the diabetic children doomed to death before insulin was discovered and how diabetic children now grow to be men and women as "normal" people, we realize that Drs. Banting and Best have done for suffering humanity. Formerly, also, pregnancy in diabetes was prohibited; today, under proper care, pregnancy is considered safe.

The average life span today is now about 66 years as compared with about 50 twenty-five years ago. Thanks to insulin, life expectancy of the diabetic patient has now reached 70 years of age. Diabetic patients can now purchase insurance which heretofore was completely denied them.

How much do you know about diabetes? Send today for Dr. Barton's interesting booklet on this ailment entitled "Diabetes." Just send ten cents and a three cent stamp, to cover cost of handling and mailing, to The Bell Syndicate, in care of The Kingston Daily Freeman, Post Office Box 99, Station C, New York 19, N. Y., and ask for your copy. (Released by The Bell Syndicate, Inc.)

The paper will go back to its old-time six pages.

If only white shirts would work out at eight for cost of six!

Is This the Place to Start Cutting?

AS PEGLER SEES IT

By VESTBROOK PEGLER

J. David Stern, a New Dealer from the hour when Roosevelt opened the rush of the unionizers into our modern Cherokee strip, has recanted and repented in a public demonstration before the committee on labor of the House of Representatives. Stern formerly owned a newspaper in New York but withdrew to Philadelphia and Camden where he ran the Philadelphia Record and the Post and the Courier, of Camden. For years he took his bows and accepted political and commercial benefit as the first newspaper publisher to sign a contract with the Newspaper Guild. This organization began as a guild of editorial employees who, for a number of reasons, had often been imposed upon by some publishers, particularly in times of slump, by contrast with the workers in the mechanical trades whose wages were fixed by contract and, in many cases, had the closed shop.

Last November 7 the Newspaper Guild of Philadelphia and Camden struck Stern's papers and just about closed them. Stern ended it on February 1 when he announced that he had sold out to the Philadelphia Evening Bulletin.

Meanwhile, the Guild and some of Stern's old editorial employees had ceased to praise him and were damning him as a union-busting baron of industry. The Guild was infested with Communists from its beginning, especially in New York, Philadelphia and Los Angeles. It soon went into the American Federation of Labor and its official affiliations, as in the case of Stern, have been withdrawn.

The editorial or journalistic workers were swamped long ago by the admission of other categories, including even hustlers. The Stern employees turned out a badslide a few weeks ago in which they pointed out that Stern got a million dollars worth of publicity by signing the first contract with the Guild, was the "friendship" meaning the coercive power of the union bosses, euphemistically known as "organized labor," and received "an enormous labor contribution."

Moreover, the broadside correctly recalled the fact that Stern helped to make him a power in the New Deal at Washington. These memoirs seriously impugn Mr. Stern's reasons for signing the first contract. The Guild had as much reason then to suspect that Stern had such practical motives for his "progressive" course as it has now. Other publishers and other staff journalists perceived the advantages to Stern at the time and were just as skeptical of his idealism as the Guild is now, but more honest in that they said so aloud whereas the unionizers paraded him as a selfless prophet of the new day and hung him to public opinion at the time of the Guild's happy relations with the Guild, the C. I. O., the

A. F. of L. and the local and national party machines. From San Diego to New York there has been a trail of suspensions of papers employing from a few hundred to thousands of workers, helpless in these situations, which were struck by the Guild with an instinct for the jugular. Most of these were strikes by small minorities. Losing properties were simply laid away, the workers became "displaced persons" with their family responsibilities and the New York Communist moved on to new fields of conquest.

Stern said he couldn't fire anyone for reasons of economy, although C. I. O. unions frequently do just that and other publishers had fought against this control of the purse by the Guild when he was beneficiary of all that free publicity that "friendship" of the whispering propagandists whose habitual smear was "Fascism" and anti-Semitism against all opponents, that "enormous labor contribution" and that "power in the New Deal at Washington."

He couldn't fire anyone for anything short of dereliction of duty. That was a mild provision, at a Guild meeting in New York a Union Square agitator reported happily that the Mirror's Guild was fighting for a clause that would make it impossible for the paper to fire anyone for any reason short of the commission of a felony. Then, if the paper couldn't fire men whom he now finds out to be person in court, the subject would have an action for damages. Saboteurs, loafers and incompetents would be protected. The sense of this meeting was that the decent newspaper workers had no intention to make common cause with the bums and the Communists to guarantee them job security.

Stern had been offended personally by attacks which he regarded as venomous, and on that point many others who endured the foulest abuse for years will hope his pains aren't trivial. He was complacent, at least, when better and more honest men spurned the temporary favor that he enjoyed in friendly association with men whom he now finds out to be person in court, the subject would have an action for damages. Saboteurs, loafers and incompetents would be protected. The sense of this meeting was that the decent newspaper workers had no intention to make common cause with the bums and the Communists to guarantee them job security.

That seems to be the real story of his conversion to be filed away in the same folder with the vilest transport and the Guild against the dark and greedy forces of reaction.

Health for All

Influenza

Most of us remember the "flu" epidemic which swept the world in 1918, bringing tragedy to many homes in the period just after the first world war. Some of us remember that many people we knew died of the "flu" and that the epidemic killed more people than the war itself. Influenza is apt to occur in epidemic because it makes a periodical return, in cycles of years, and spreads very quickly. The average incubation period is only two days.

Scientists predicted a high incidence of influenza this winter because the cycles of past epidemics, both major and minor, pointed to such a development. Although epidemics of major diseases do tend to occur in cycles, predictions based on such cycles are by no means exact.

Influenza is caused by a virus, a germ too small to be seen by an ordinary microscope. The influenza virus attacks the lining cells of the nose and throat. The disease usually starts with moderate fever, headache, general pains and marked prostration, which may be accompanied by a sore throat or symptoms of an ordinary cold. It is sometimes complicated by pneumonia, bronchitis, or pleurisy and emphysema.

Since influenza is so highly infectious, and comes on so suddenly, it is wise to isolate the patient as soon as possible. Old people especially should be guarded against any contact with anyone who has influenza, since they are less likely to survive the disease than younger people. Children should also be carefully protected, since they seem more susceptible to the disease than adults.

Although the course of influenza itself is brief, convalescence takes a long time, sometimes weeks or months. To prevent the possibility of a relapse with all its complications, patients are kept in bed for some weeks after the fever has disappeared. Because a feeling of emotional depression is one of the inevitable after-effects of the disease, pleasant surroundings are essential to complete recovery.

The "flu" epidemic predicted for this winter was less severe than the 1918 one. This may be due in part to the recent development of a vaccine—an immunizing agent produced by injecting virus into chick embryos. The vaccine is, of course, a preventive measure, not a cure, and is effective only if taken before one gets the disease.

Your family doctor is the best judge of whether you should have the influenza vaccine. Because he knows your general susceptibility to respiratory infections, and how you live and work, he can determine the proper time to protect you against influenza.

In the next article, the common cold will be discussed.

This column is sponsored, in the interest of better health, by the Ulster County Tuberculosis and Health Association, 74 John Street, Kingston.

Springfield Picketing Is Tamed Violence, Since It Is Reportedly Done en Masse
By DAVID LAWRENCE

Washington, Feb. 20—The Constitution says that "Congress shall make no law abridging the freedom of speech or of the press," but several labor unions do band together and do stop a newspaper from publishing.

That's exactly what happened in Springfield, Mass., on Tuesday of this week when the United Press reported, "a shoulder-to-shoulder picket line around the Springfield Daily News building today prevented delivery of all 20,000 copies of the strike-bound newspaper, which non-union supervisory workers had succeeded in printing."

Mass picketing is violence. While William Green, head of the American Federation of Labor, and Philip Murray, of the C.I.O., are banding together to lobby against any legislation by Congress on the labor problem, neither one is condemning "mass picketing" or the use of violence in labor disputes.

If trade unionism in America cannot succeed by persuasion and the voice of reason and can triumph only by "strong arm" methods, then there must be something fundamentally weak about the effort to win or keep members in trade unions. Likewise, if private war between those who have an economic dispute is to be tolerated by government, then all argument against the citizen taking the law into his own hands falls to the ground.

Both the C.I.O. and A.F.L. unions which engage in "mass picketing" would be the first to cry out against a loss of civil liberties anywhere else. This is what has been happening in Georgia, Tennessee, and elsewhere where citizens have taken the law into their own hands and are condemned by labor unions. They pass many a resolution properly condemning examples of violence. Yet the labor unions not only engage in such violence themselves but they are trying in Washington now to prevent Congress from passing any laws forbidding "mass picketing."

Under the Constitution, civil liberties are guaranteed. But will the Department of Justice proceed against the "mass pickets" in

Springfield, Mass., who have deliberately stopped a newspaper from publishing? It probably will be argued in avoidance of the issue that there is no law. Yet the department found of civil liberties in Georgia and did seek to apprehend the lynchers.

The "mass picketing" evil has cropped out in several states. It might be asked why the city police do not afford protection. The answer is that local police chiefs are sometimes too much influenced by the political threats of labor unions. As for state authorities, it is cumbersome for them to intervene unless the city itself asks for the help of the state government. Labor politics operates again to stay the hand of the state.

A federal law to guarantee citizens the right to work should be really necessary if there is universal respect for civil liberties. The right to work is as sacred as the right to quit work.

If mass violence is not stopped by authority of law, the result can be the hiring of strong-arm men by employers to fight the pickets. Then perhaps America will see clearly the absurdity of leaving to citizens alone the settlement of their economic disputes with violence.

It should not be necessary for blood to be shed to prove to the Congress that it has a solemn duty to pass a law forbidding "mass picketing" or the use of violence, coercion or intimidation by either employers or employees in labor disputes. Peaceful picketing by persuasion is lawful but "mass picketing" has no justification in law. The citizen who wants to work is forcibly prevented from working.

The right to work apparently is not recognized by labor unions which for they have a monopoly which they use to regulate employment in America. The Wagner Labor Relations Act fostered that feeling. Hence, modification of that statute so as to place responsibilities on labor as well as management is vitally necessary if a business recession and industrial chaos are to be avoided. Byron Price Gets United Nations Job To Replace Hutson

Will Serve 4 Years Under Lie as Assistant in Administration; Was in Hollywood

Lake Success, N. Y., Feb. 20 (AP)—Byron Price, director of censorship during the war, is the United Nations' newly appointed assistant secretary-general in charge of administrative and financial services. The secretary-general announced his appointment yesterday to replace John B. Hutson, who recently resigned. The announcement said that Price would come here in about a month to take up his duties.

His appointment is for four years—until the end of the term of Secretary-General Trygve Lie. Price will receive a yearly \$13,500 salary and \$8,500 expenses, tax free.

Since he left government service, Price has been vice president of the Motion Picture Association of America under Eric Johnston in Hollywood. Before Pearl Harbor, he was executive news editor of the Associated Press in New York. President Roosevelt appointed him to head the Office of Censorship in December, 1941. Price won general praise for his management of voluntary censorship. He made his final report to President Truman in December, 1945, after undertaking a special mission to Germany.

Becomes Top U.S. Man
Warren R. Austin, chief U.S. delegate to the U.N., was quick to congratulate Price, who becomes this country's top man in the secretariat.

Secretary of State Marshall, whose department presumably cleared the appointment before it was made public, greeted the announcement by praising Price for "high qualities of judgment and leadership."

The secretariat said Lie before choosing Price had considered many other candidates. Price, who will be 56 March 25, was born in Topeka, Ind. He is a graduate of Wabash College in Crawfordsville, Ind.

He was an army first lieutenant and captain of Infantry overseas from 1917 to 1919. Except for those years, he was employed continuously by the Associated Press from 1912 until he became chief U.S. censor. He served successively as news editor and bureau chief in Washington. In 1937, he became executive news editor in New York.

The United States is one of eight countries which have assistants to Lie. The other countries are Britain, Russia, France, China, Chile, Czechoslovakia and The Netherlands.

Nearly 100,000,000 of India's people live in quasi-independent princely-ruled states.

Police Find Stains And Seek New Clues

Los Angeles, Feb. 20 (AP)—Discovery of a blood-stained culvert in picturesque Las Tunas canyon, off the Pacific ocean north of Santa Monica, sent investigators on a minute search today for new clues in the "Black Dahlia" slaying of pretty Elizabeth Short, 22-year-old film hopeful.

Capt. Norris Stensland, after an inspection of the spattered, hand-marked concrete last night, said "A woman's body definitely could have been cut up in this pipe."

Found nearby were a bloody shirt, size 15½, with a label of a Cleveland, O., maker, a stained bow tie and a razor blade. Miss Short, known as the "Black Dahlia" because of a fair for flowers and ebony-hued dresses, was found slashed and beaten in a vacant lot Jan. 15. Her body had been severed by some weapon heavier than a razor blade, but since there was little blood at the scene, officers have pressed a constant search for the murder scene.

Trio Pleads Guilty To Morals Charges In County Court

Elton DePuy, Mrs. Jennie M. Osterhoudt and Harry S. Osterhoudt, town of Rochester residents who were involved in a "Tobacco Road" incident which resulted in grand jury indictments for abduction, adultery and rape, appeared in County Court Wednesday afternoon and pleas of guilty were entered by all three. Then County Judge John M. Cashing set February 24 at 2 p. m., as time for sentence.

Elton DePuy, charged with abduction and adultery in two bills, pleaded to the adultery charge and the other indictment was dismissed on application of his counsel Elmer H. Nathan. Mrs. Jennie M. Osterhoudt pleaded guilty to the charge of adultery as named in the indictment. Harry M. Osterhoudt, who had been indicted for rape, second degree, pleaded guilty to Section 43 of the Penal Law, an omnibus

section covering numerous misdemeanors. N. LeVan Haver appeared for both Osterhoudts.

Bail was continued until next Monday at 2 o'clock when sentences will be pronounced.

Gino Catalano, charged in three counts with violation of Section 483, a moral charge, pleaded innocent and the case will go over to April. John E. Wadlin of High-

land appears for defendant. Bail was continued. Catalano is charged with specific violations on July 5, October 31 and November 19, 1946.

Christmas Tree Revenue
Albany, N. Y., Feb. 20 (AP)—Christmas tree sales during the 1946 holiday season brought the State Conservation Department a

record \$29,370. William G. Howard, director of lands and forests, said last night that the number of trees sold, 56,984, was about 11,000 under the 1943 peak, but that higher prices last year accounted for \$5,844 increase.

Brotherhood in Arms
Tokyo, Feb. 20 (AP)—A former Japanese regimental commander bought a small cafe some time ago.

A former subordinate walked in and gave a joyful greeting was given a drink.

No change, said the ex-commander, and the same man showed up with a handful of brethren from the old regiment. All dined. None paid.

After several days, during which what seemed like the whole regiment visited him, the ex-com-

mander gave up and today sold his cafe.

Springfield, Ill., Feb. 20 (AP)—The cat at Ulysses Jones' farm home faces eviction to the barn because she added a new-born pig to her litter of four kittens. Jones said he brought one of the seven newly born pigs into the house after he found it was sick. Abby showed sympathetic interest, Jones said, "and soon was nursing the pig."
"But it she keeps it up she'll have to move to the barn. We can't keep the pig in the house very long."

Homemade Highway Signs on Way Out

Albany, Feb. 20—Homemade signs erected by individuals along state highways to indicate those

places used for cattle crossings will soon be on their way out. Announcement was made here today by Charles H. Sells, State Superintendent of Public Works, that new uniform "Cattle Crossing" signs are now being prepared by

the state and will replace those now posted by individual farmers. State erection and maintenance of such signs is part of the overall program of the Department of Public Works to remove from the highway rights of way all private

and unauthorized notices. The new signs are being manufactured at the department's sign shop in Albany and will be ready for installation in the spring. Erection of the signs will be requested of farmers who wish to transfer their cross overs to other

spots. Existing signs will be allowed to remain in place until election of the new state markers can be effected.

Ex-Convict Dies In Chicago Trap

Notorious Milwaukee Man
Refuses to Surrender,
Police Declare

Chicago, Feb. 20 (AP)—Police machine gun fire killed Elmer Henry Pierce, notorious Milwaukee ex-convict, in an ambush at a deserted elevated station in suburban Westchester shortly before midnight last night.

Detective Joseph McCabe—one of nine policemen who laid the trap—opened fire on Pierce, 37, charged with murder in the wild Milwaukee street car slaying of his niece last Jan. 7.

He said Pierce, described by po-

lice as a "dangerous maniac," ignored orders to surrender and reached for a loaded revolver in his overcoat pocket.

McCabe raked Pierce with 16 shots at a distance of 10 feet, killing him instantly. Andrew Aiken, deputy chief of detectives, several weeks ago warned police to "have your weapons ready at all times" in dealing with Pierce.

Pierce, who had a Milwaukee police record of 50 holdups previous to his imprisonment in Wisconsin from 1930 to 1942, had been connected by Milwaukee police with a series of holdups and the kidnapping of a garage attendant there since the shooting of his niece.

An intensive search was extended to Chicago Jan. 31 when Pierce was identified as the perpetrator of three holdups. In one he shot cab driver Edward Swanson after asserting, "I killed once and I'll kill again." Swanson was not injured seriously.

Proposes Pari-Mutuel Pay State Vets Bonus

Albany, N. Y., Feb. 20 (AP)—New York's proposed \$400,000,000 bonus for veterans of World War 2 would be financed in part through the "breakage" on pari-mutuel betting at horse race tracks under a measure introduced in the legislature.

Assemblyman William J. Drohan, Bronx Republican, introduced a bill yesterday to place the "breakage" in a special fund for retirement of bonus bonds.

The "breakage" the odd cents over any multiple of five on a \$1 bet now is divided between the state and the racing associations. It totaled more than \$3,000,000 last year.

The bonus amendment, approved by two legislatures is to go to the people for vote next November.

Governor Dewey has urged amortization of the debt over a short period of time. Some Republican legislators have suggested that it be financed by additional taxes on gasoline, cigarettes and liquor to liquidate it in 10 years.

Dressing Up Cathedral

New York, Feb. 20 (AP)—St. Patrick's Cathedral hopes to have a new dress for Easter Sunday.

Mrs. Joseph F. Flannely, cathedral administrator, announced yesterday that barring strikes and adverse weather the entire Fifth avenue facade of the cathedral should have repairs completed and a new rose window installed by Easter. The window was a \$25,000 gift from an anonymous donor.

Woodstock Painter Resists Eviction

Joseph Pollet, N.Y.U. Art
Teacher, May Lose
His Studio

New York University's move to oust prominent artist tenants from a Washington Square landmark in New York this week found Joseph Pollet, Woodstock artist taking part in an OPA hearing following applications to stay the eviction.

Pollet, who owns a home near the boarding of the Woodstock and suggests townships now occupies a top-floor studio at No. 3 Washington Square a building which has housed famous artists for many years.

The artist who lives in the building and what was described as a sentimental plea before the

OPA in New York Tuesday. The university has asked the OPA to issue certificates of eviction because recent veteran enrollment has expanded the student body. It plans to make use of two other adjoining buildings along with that now occupied by the artists.

Pollet, who teaches art at the university suggested at the hearing that the artists might get better results, if they petitioned the university directly. Despite the fact that the tenants carry their coal up and their garbage and wash down sud Pollet, the large studio rooms in the building have special advantages for artists.

John Sloan, who ranks high among American painters, made a plea in behalf of the tenants of No. 3. He is not a resident there, but he stressed the point that the occupants of the building if evicted would be forced to compete with veterans in finding new quarters.

OPA Rent Attorney Ira Schiller, assured the artists that OPA is not entirely devoid of sentiment but added that there are other things to be considered.

Ford Goes West

Los Angeles, Feb. 20 (AP)—Henry Ford II is in town, with \$50,000 expected, Los Angeles industrialists gave him a rousing welcome. Approximately 1,300 manufacturers gathered to inspect 2,600 parts which Ford says are needed for everyone.

for his automobiles, and which he wants to buy locally for assembly in the west. We ask the help of the west coast industry, he said in a luncheon speech in our campaign for more products at lower costs.

Decision Reserved In Canizio Case

Claims Lack of Counsel at
Time of Sentence

Judge John M. Cashin today reserved decision on the application of Frank Canizio, now confined at Auburn prison, for release from that prison. Canizio sought through a writ to be returned to Ulster county to argue his application. He contends that he was illegally committed to prison in April 1936 since he was not represented by counsel at that time.

The application for return to Ulster county of the defendant was denied by Judge Cashin and the matter of vacating the judgment was adjourned until today when argument was heard on the petition. Raymond Mino appeared for the defendant. Court records and the stenographer's minutes taken at the time Canizio was sentenced were offered in evidence. Following introduction of the court records Judge Cashin reserved decision.

Ulster Park Men Arrested

Howard Little, 45, of Ulster Park, was held at the Ulster county jail last night pending a hearing before Justice John O. Beaver of the town of Esopus on a charge of driving while intoxicated. Little was arrested Wednesday evening while driving on 9-W, in the town of Esopus, by Corporal Arthur A. Kelly of the B.C.L. who said that he was driving all over the roadway. Arrested with Little and held on a charge of public intoxication was Richard Propheeter, also of Ulster Park.

Sentence Is Suspended

Alvin Lint of Clintonville was arrested at that place Wednesday by Troopers Dunn and Austin of the Highland station on a charge of disorderly conduct. He was arraigned before Justice H. C. Smalley, who gave him a suspended sentence of 30 days in jail.

Auto Liability Insurance Increase Don't Apply in N.Y.

An additional increase in automobile liability insurance which became effective in 27 states on February 17, for the present does not apply to New York state. In order that the increase become effective in New York state it will have to be approved first by the state insurance authorities.

This increase in car liability insurance rates will be when adopted in New York, in addition to the increase in rates which became effective last July first when rates were materially increased. Policies written prior to last July at the old rate, and renewable since that time, will be written at the new classifications and rates went into effect last July. This increase was based on the mileage driven as well as the use of the vehicle and the number and age of persons operating such vehicle. The increase in property damage and personal liability rates ranged from 30 per cent for the Class B driver for policies written after July 1, 1946. Class A-1 drivers had a smaller increase.

The increase which may later become effective in New York state, and is now effective in 27 states, will be approximately 30 per cent on property and 10 per cent on personal liability premiums. One insurance man stated that this would amount to a further increase of perhaps \$5 to \$8 on the present Class B \$5,000 and \$10,000 coverage.

Britain Shivers as Fuel, Food Supply Gets Worse

London, Feb. 20 (AP)—European weather, a critical factor in the battle against Britain's fuel and power shortage, turned worse today.

Snow fell in most districts of England and Wales. In northeast Yorkshire some roads just cleared of drifts were blocked again.

Continental countries without exception reported sub-normal temperatures and no sign of an early break in the cold wave which first struck more than a month ago.

Practically all regions were short of fuel and in some areas food supplies were drained to the danger point.

Strike Is Averted

Los Angeles, Feb. 20 (AP)—A threatened strike of C.I.O. Union Oil Workers in five western states, set for 10 a. m., Pacific Time today, was averted when company and union representatives reached a tentative wage agreement less than three hours before the deadline. The agreement subject to ratification by the union membership, was accepted for the union by O. A. Knight, international president of the C.I.O. Oil Workers.

No Cause Action

A no cause for action verdict was returned late Wednesday evening by the jury which heard the evidence in the negligence action brought by Earl DeWitt, Walkill prison guard, against Walter McNutt. The action, tried in County Court, involved damages to the DeWitt car and personal injuries resulting from a collision between the cars of parties to the case at Route 208 and 45 and 55. Peter H. Harp and N. Levan Haver appeared for plaintiff and Andrew J. Cook, Jr., for defendant.

\$150,000 Upstate Fire

Syracuse, N. Y., Feb. 20 (AP)—A four-story brick warehouse building near the downtown area was gutted by fire of undetermined cause today and an adjoining building was damaged with total loss estimated at \$150,000 or more. The blaze was brought under control about three hours after the first alarm was sounded at 7:30 a. m.

Late Bulletin

Washington, Feb. 21 (AP)—House Republicans won the first test today in their drive to cut \$6,000,000 off President Truman's budget, putting over a rule forbidding amendments to their economic resolution.

Democrats shouted "Gag" and "Czarist rule" at the G.O.P. tactics, but Republican ranks held firm to put through the rule. The action came in the face of a declaration by Democratic Floor Leader Rayburn of Texas that the budget slash would help push reluctant millions into "into the arms of Communism."

"If we do not help those near starvation," he cautioned, "we'll push them into the arms of Communism."

Keator Applies For Retirement as State Police Officer

Lieut. Hervey A. Keator of 5 Clinton avenue, one of the oldest men in point of service in the New York State Police service, has filed his application for retirement from the service. Lieut. Keator entered the Troopers shortly after Col. George Chandler of this city organized the state constabulary. According to John A. Gaffney, superintendent of the State Police, Lieut. Keator seeks to retire as of March 15.

During World War 1, Lieut. Keator saw service and after joining the troopers he was stationed with Troop D at Onondaga for a time. Later he was assigned to Troop G at Troy and while there he became an authority of traffic. Graduating from Northwestern University Traffic School, he was in charge of the Troop G traffic bureau, and was on the faculty of the New York State Police School, lecturing on traffic and highway safety problems.

During World War 2 he was assigned to Troop L on Long Island and several months ago he was transferred to C Troop at Sidney. Lieut. Keator was an expert with small arms and engaged in numerous pistol and rifle contests, conducting numerous rifle and pistol shoots for the Department of New York, American Legion.

Phone Workers Are Against Restriction

Continued from Page One

Congress either specifically exclude his union from a big-scale bargaining prohibition, or write an exemption applying to "similarly situated employees and employers."

The N.E.T.W. leader also criticized legislation to outlaw the closed shop and its modifications under which union membership is a condition of employment.

The issue here, Beirne declared, is not whether the closed shop shall be deemed lawful or unlawful, but whether labor unions "are to be permitted to survive as virile, active and militant organizations."

Beirne terms the closed shops and its variations "a most effective producer of union responsibility."

The N.E.T.W. also opposed legislation which would:

1. Outlaw the payroll check-off system of collecting union dues.
2. Provide for compulsory arbitration. (No pending bills require it.)
3. Set up a federal mediation board independent of the labor department.
4. Overhaul the Wagner Labor Relations Act.

In appealing to C.I.O. President Philip Murray and A.F.L. Chief William Green for their support in fighting any legislation which might stem from a telephone strike, Beirne wrote:

"We do not want to put labor unions in a legal strait jacket. At the same time, we do not intend to back down from those things which we are convinced are justifiable improvements in our wages and working conditions."

"We wish that you could find it possible to rally to our support by fighting valiantly against any restrictive legislation that might be proposed as a result of a public inconvenience our strike, if held, might cause."

Beirne added that a strike might give Congress "opportunity" to enact legislation which would nullify "all the protective labor laws now on the statute books."

Green and Murray already have urged the Senate committee not to approve any of the restrictive measures it is studying.

War Surplus Price
Washington, Feb. 20 (AP)—Senate and House investigators laid plans today for a \$150,000 joint inquiry into disposal of war surplus which cost billions of dollars. This is not going to be any dead horse investigation, Senator Ferguson (R-Mich.), told a reporter. "We are dealing with the future billions in surplus property that must be sold."

Attic Fire Causes \$5,000 Damage to Woodridge Home

Fire which was discovered about 4:30 Wednesday afternoon in the attic of the main house on the C. K. Woodridge estate, located on the New Paltz-Libertyville road, about two miles from New Paltz—the former Arbuckle property—resulted in damage from fire and water estimated to have exceeded \$5,000.

Mrs. Woodridge was alone in the house when a neighbor called her attention to smoke which was pouring from the upper portion of the house. Mrs. Woodridge, investigated and found that the entire attic was on fire.

A call was sent in to the New Paltz Fire Department, which responded, with two pumps. Two lines of hose were laid to a small stream which runs in front of the property and which fortunately has a plentiful supply of water at this season and although the fire had made good headway by the time the firemen arrived they succeeded in confining it to the upper portion of the house.

When the fire was brought under control after a three-hour battle by the firemen, it was found that the roof was probably a complete loss, fire had swept the attic and burned through the ceiling of the second floor rooms.

Outside of the direct fire damage, however, there is heavy damage from water to the lower floors and furnishings.

No cause for the fire could be ascertained, but is believed to have been due to some defect in the chimney.

Two Removed to Prison

James McAlister, West Point soldier, who was sentenced Monday in County Court to Clinton Prison for a 5 to 10 year term for the slapping to death of Fred Warden, Newburgh, last September in a car parked on Brewster street, was taken to the prison yesterday by Sheriff George Smith. McAlister, pleading to manslaughter, had been indicted for murder, first degree, for the slapping of Warden whom it was charged had threatened to run away with McAlister's wife. Also taken to Clinton Prison to begin a 3½ to 7 year sentence was Robert Parmalee, Poughkeepsie, who pleaded to a charge of sticking-up The Elms at Rosendale along with three other youths.

Albany Houses Burn

Albany, N. Y., Feb. 20 (AP)—Fire raged through three adjoining three-story brick houses in downtown Albany this morning, driving 31 residents into near-zero cold. The blaze wrecked the interior of the center building, where it apparently started. Damage to that house was estimated by the owner, Robert Micare at about \$10,000.

Bradley Directs V.A. Cuts

Washington, Feb. 20 (AP)—Gen. Omar Bradley, veterans administrator, froze V.A. employment at or near its peak of 224,852 persons today and ordered all V.A. offices to begin strict economies. The action apparently was Bradley's answer to congressional criticism that V.A. administrative expenses are excessive.

China Bars Autos

Shanghai, Feb. 20 (AP)—Despite the fact that China is desperately short of transportation, the government, in its efforts to stabilize the nation's disordered economy, has prohibited the importation of automobiles.

Two Removed to Prison

James McAlister, West Point soldier, who was sentenced Monday in County Court to Clinton Prison for a 5 to 10 year term for the slapping to death of Fred Warden, Newburgh, last September in a car parked on Brewster street, was taken to the prison yesterday by Sheriff George Smith. McAlister, pleading to manslaughter, had been indicted for murder, first degree, for the slapping of Warden whom it was charged had threatened to run away with McAlister's wife. Also taken to Clinton Prison to begin a 3½ to 7 year sentence was Robert Parmalee, Poughkeepsie, who pleaded to a charge of sticking-up The Elms at Rosendale along with three other youths.

Bills Proposed at Albany

Albany, N. Y., Feb. 20 (AP)—Governor Dewey today signed legislation, which he requested, to enlarge the State Parole Board from three to five members.

Dewey also approved two other measures, one of which continues the State Flood Control Commission for another year.

At the other end of the legislative factory, new legislation included bills which would:

Create Susquehanna Valley Hospital Authority for acquiring and operating Public General Hospital for towns in Delaware, Chautauque and Otsego counties; authorize issuance of \$200,000 in bonds. (Senator Arthur H. Wickes, R., Kingston).

Increase the number of state war scholarships from 3,600 to 4,800, as recommended by Dewey. Provide licensing of chiropractors.

Authorize 15 per cent cost-of-living pay increases for county officers and employees.

County officers and employees, now limited to salaries designated

for them when they took office, would be permitted the 15 per cent pay boost under terms of a bill offered by Assemblyman Frank J. Becker, Nassau Republican.

Nullify motor vehicle registrations and drivers' license of persons making false statements in applications for the licenses.

Require cities to pay substitute teachers at the same rate as permanent teachers.

Legislation to enlarge the parole board was requested by Dewey, on the ground that the present three members were overburdened. Members, appointed by the governor subject to Senate concurrence, serve six-year terms at an annual salary of \$12,000. The board at present is made up of Chairman Frederick A. Moran of Albany, Reginald B. Taylor of Buffalo and Louis F. Cosuma of New York City.

Other bills would: Prohibit discrimination in public places against blind persons accompanied by seeing-eye dogs (Assemblywoman Gladys E. Banks, R., Bronx).

Wright Is Appointed

Albany, N. Y., Feb. 20 (AP)—Ralph Wright, executive secretary of the Allied Printing Trades Council of Greater New York, will serve as an employee representative on the State Labor Department's apprenticeship council until December 2. Wright was appointed yesterday by Governor Dewey to fill the unexpired term of Edward W. Edwards of Albany, resigned. The seven-member council sets standards for apprenticeship agreements and maintains data on employment trends and opportunities in various trades.

Tolerance Speaker

REV. F. B. SEELEY, I.D.

Guest speaker at the synagogue of the Congregation Aavath Israel on Wurts street, Friday at 8 p. m., will be the Rev. Dr. Frank B. Seeley, pastor emeritus of the Fair Street Reformed Church.

His reputation for masterful treatment of various subjects, and his eloquence indicates that his discourse on Brotherhood Week will be very inspiring to those who attend the program aimed to promote tolerance.

All members of the congregation are urged to hear Dr. Seeley and a cordial invitation is extended to the public by the committee on arrangements.

Ministerial Group

Mourns Dr. Cole Death

The Kingston Ministerial Association's statement upon the death of the Rev. Dr. Cole, which was read at the funeral services by the Rev. Dr. F. B. Seeley, follows:

The passing of our friend and brother, the Rev. Arthur S. Cole, marks the end of a life of wide and lasting influence for good in many lives, in the community, and the Church of Christ.

To have known him over a period of years was to engender ever-increasing respect for him as a man, a preacher, a pastor and, above all, as a friend, loyal, dependable, thoughtful, kind and true.

He was a man of gentle, kindly spirit, modest of mind and heart, generous of soul, tolerant, gracious—ever-seeking to "preach the truth in love," to comfort and relieve the distressed, and to promote the well-being of young and old.

His many years of membership in the Kingston Ministerial Association were marked by regularity in attendance, glad cooperation, constructive expression of thought and purpose on common problems and plans, and a genial and friendly spirit at all times.

We of the Association who knew him well do sincerely mourn his departure; we cherish the memory of his good life; and we give thanks to God for his faithful and fruitful ministry in the Gospel of Christ.

THE KINGSTON MINISTERIAL ASSOCIATION,

Signed,

W. WESLEY WILLIAMS, Pres.

Boccanfuso-Sfregola Wedding Takes Place In New Paltz Church

The wedding of Miss Frances Sfregola, daughter of Mr. and Mrs. Roger Sfregola, New Paltz, to Dominick Boccanfuso, son of Onofrio Boccanfuso, 1307 Sheepshead avenue, the Bronx, took place Sunday at 1:30 p. m. The double ring ceremony was performed at St. Joseph's Church, New Paltz, by the Rev. George B. Fagan, pastor. During the ceremony "Ave Maria" was sung. The church was decorated with white sweet peas.

Mr. Sfregola escorted his daughter. Her white satin gown was fashioned with a sweetheart neckline and train trimmed with ruffles. She wore a long veil with headpiece of orange blossoms and carried a large bouquet of calla lilies.

Miss Clara Sfregola, sister of the bride, was maid of honor. She wore a fuchsia gown and carried a bouquet of talisman roses. The bridesmaids were the Meses, Esther Sfregola, sister of the bride, in a blue gown; Palma Boccanfuso, the Bronx, sister of the bridegroom, in a blue gown; Gloria Boccanfuso, the Bronx, sister of the bridegroom, in a yellow gown; and Ann Nardulli, Astoria, L. I., in a pink gown. All carried talisman roses.

Joseph Boccanfuso, cousin of the bridegroom, of New York city, acted as best man. Ushers were Dominick Boccanfuso, New York, cousin of the bridegroom; Leonard Mallardi, Cosmo Mallardi, Tony Mallardi, the Bronx, cousins of the bride.

A reception was held for 80 guests at the Hotel Newburgh in Newburgh. Afterward Mr. and Mrs. Boccanfuso left for a wedding trip through the south. For traveling the bride chose a soldier blue suit with coachman style jacket, white flower hat and corsage of white roses. Upon their return they will make their home in New Paltz.

Mrs. Boccanfuso is a graduate of Central High School of Needle Trades, the Bronx. Mr. Boccanfuso, who attended New York schools, served in the army and was overseas in the China-Burma-India theatre, as well as Japan and Europe.

County Girl Scouts Observe 'Thinking Day' By Sending Supplies

Under the auspices of the Ulster County Council of Girl Scouts, eighteen boxes of school supplies and other articles were sent to Europe from Kingston and vicinity before Christmas, so that they would surely arrive by "Thinking Day", February 22. This day is set apart by Girl Scouts and Girl Guides through the world as one of thought and prayer for those who are less fortunate than themselves. The date was selected because it is the birthday of both Lord and Lady Baden Powell, founders of the group.

The boxes which are the local scouts' tangible thoughts for the special day were allotted as follows: one went to Germany, one to Norway, two to Poland, three to Belgium, three to Greece and eight to Holland. Troops filling the boxes and mailing them out to these various countries were: Troop No. 12, Marlborough; Troops 1 and 20, Ellenville; Troop 37, Stone Ridge; Troops 19, 51 and 44, Port Ewen; Troops 53, 22, 63, 39, 44, 8 and 13, Kingston.

The Kingston Leaders' Club also contributed two boxes. Highest honors went to Troop 22, which sent three boxes.

Michael Sarkies Weds Frances L. Coleman Of London, England

Miss Frances L. Coleman of London, England, was united in marriage to Michael Sarkies of 29 East Strand, Monday, by the Rev. John A. Flaherty. Attendants were Mrs. J. Jankis and Maroon Sarkies.

The ceremony was performed in the rectory of St. Mary's Church.

The couple was attended by Mrs. Helen Flynn, sister-in-law of the bridegroom, and William Nawe, brother of the bride. Guests were present from New York, Poughkeepsie, Albany and Kingston.

Following the ceremony a reception was held at the home of the bridegroom for the relatives and immediate friends, after which the couple left for a short wedding trip to New York City.

Mrs. Grunenwald, before her marriage was employed as bookkeeper in Buck's Broadway Market.

Mr. Grunenwald is owner of Grunenwald's Bakery, of 145 Hasbrouck avenue. He is also a well-known bowler and interested in other sports in the city.

Wright-Keator

The marriage of Doris B. Keator, and Raymond Wright, Jr., both of Tilton, was performed by the Rev. Charles Edward Hewitt in Plattekill February 14. Mae Keator and Robert Wright were the attendants.

Fitzgerald-Hatcher

Pinky Mae Hatcher, 81 Chambers street, and James Fitzgerald, 81 Chambers street, were married February 17, by the Rev. Oscar Palmer. Dorothy Fitzgerald and Sylvanus Timbrock were the attendants.

Atharhacton Club Hears Paper

On North and South America
Atharhacton Club met with Miss Louise van Hovenberg, 136 Wall street Wednesday afternoon. Tea was served and Miss Helen Sheldon assisted the hostess by pouring.

Mrs. Mary E. Noone in her paper "Contrasting Cultures," spoke of the cultures of South and North America. In introducing her topic she said it would be impossible to describe all of the contrasts of the 20 republics of South America but she chose a few of the larger. She spoke of the difference of educational and social life and also described a visit to a coffee plantation in Brazil. She closed with parts from two modern poems by a Nicaraguan poet.

The next meeting of the club will be March 5 at the home of Mrs. Charles A. Terwilliger, 319 Broadway.

Esopus Legion Auxiliary Sends

Committee to Castle Point
Miss Mary Coniglio, president; Mrs. Joseph Stadt, treasurer; and Mrs. Culver Ten Broeck, rehabilitation chairman, as a committee from the newly organized town of Esopus American Legion Auxiliary, visited Castle Point Veterans' Hospital Saturday. They took with them gifts of hard candy, magazine, books.

Other articles which may be left with the auxiliary for rehabilitation work include playing cards, games, old clean silk underwear and stockings and book-matched covers. Members of the auxiliary will also take orders for leather goods, plastic jewelry made by the patients.

As always the committee found that the patients enjoy having visitors.

Bowles Admits He Drove Through Unions' Pickets

Springfield, Mass., Feb. 20 (AP)—Sherman Bowles, management representative of the strike-affected Springfield Daily News, today pleaded guilty to operating a delivery truck without a license when he drove through a union picket line yesterday.

Executive editors of the paper said, meanwhile, they again would attempt to place copies of the newspapers on newsstands despite union opposition.

District Judge William J. Grant continued the case until February 24 after Bowles entered his plea through an attorney.

Approximately 40 pickets representing striking mechanical employees and newsmen marched in front of the Daily News this morning in below-freezing temperatures but made no effort to interfere with non-union employees entering the plant.

Bowles drove through picket lines in an attempt to deliver 6,000 copies of the News to downtown distributors.

On complaint of a union leader he was charged with operating a motor vehicle without a license. Police Lieut. Ernest Tourtellote said Bowles had not had a license since 1942.

The News published Monday for the first time in 146 days, touching off opposition from three mechanical unions (A.F.L.) and the American Newspaper Guild, C.I.O.

The paper and three affiliates—closed publication September 26 when pressmen strike-typers and typographers walked out in a dispute over wage and contract demands. Newspaper Guild members joined in the strike later.

No effort has been made to publish the other three papers, the Morning Republican and Morning and Evening Union.

Winter Grips N. Y. State, Continued Cold Forecast

Albany, N. Y., Feb. 20 (AP)—Winter held most of New York state in its frigid grip today as the mercury plummeted to overnight low readings of 32 and 28 degrees below zero in the north and part of the state.

The mercury climbed a few points at mid-morning but temperatures were still well below the freezing mark.

They included four degrees above at Syracuse and Ticonderoga; eight degrees at Albany and Utica; 10 at Binghamton; 14 at Elmira; 15 at Buffalo and Rochester; and 18 at La Guardia Field. Overnight readings included 32 degrees below zero at Saranac Lake and minus 28 at Lake Placid, where the North American two-man bobsled championship races were under way.

Other overnight low readings: -10 at Canton and Ticonderoga; -7 at Albany; -6 at Utica; -7 at Rome; -8 at Syracuse; 3 degrees above at Albany; 4 at Rochester and Buffalo and 5 at La Guardia Field.

Continued cold was in prospect throughout the day.

Jews Ask Permission

Berlin, Feb. 20 (AP)—Five thousand Jews in Palestine have applied for permission to come to Germany. Brig. A. G. Kennington, British Military Government expert for displaced persons, said today at a news conference. "Conditions apparently aren't so rosy in Palestine," he said. The applicants complained particularly of bad housing conditions, he added. He said he believed the applicants were mainly German Jews.

Predicts Air Travel Increase

New York, Feb. 20 (AP)—W. E. Cullinan, Jr., superintendent of the Airports Branch of Region 1 of the Civil Aeronautics Administration, predicts that some time next year the air traffic of the metropolis area will exceed the capacities of La Guardia Field, Newark Airport and yet unopened Idlewild Airport. He said a fourth major port would be required within a few years.

Ali Reaches U. S. Is First Ambassador

New York, Feb. 20 (AP)—Asaf Ali, the first ambassador accredited by India to the United States, arrived by plane early today and expressed hope that he can "strengthen the friendship that exists between our two countries."

The ambassador told reporters that he brought India's greetings and "when I say greetings, I do mean empty ones, but greetings based upon political, economic and cultural bonds."

The ambassador planned to leave for Washington later today.

French Plane Flew 500 Miles With Bad Motors

Paris, Feb. 20 (AP)—An Air France Constellation that made a safe emergency landing with 17 passengers aboard was reported reliably today to have flown nearly 500 miles with only two of its four engines functioning.

The big liner, bound from New York to Paris, got in trouble soon after leaving the Azores late yesterday, dropped part of its cargo in the Atlantic for lightness and headed for North Africa, closer to its destination.

The plane, a Constellation, came down at Casablanca at 8:21 p. m. (3:21 p. m. E.S.T.), with a Maj. Lechevalier at the controls.

An Air France official who declined to be identified said that the propeller of one engine had come off and damaged the adjoining engine and that the plane had gone on flying for three and a half hours on only two engines.

The company public relations office would confirm only that two engines had failed. Members of the operations staff at Orly Field said they were under orders not to discuss the flight. Air France headquarters professed ignorance of the details. A company communiqué last night said only one engine was damaged.

The passengers of the grounded plane are expected at Orly Field tonight on the line's regular Dakar-Casablanca-Paris flight.

Reds Hard Hit in China

Peiping, Feb. 20 (AP)—The government announced today it had dealt the Communist armies such a severe blow that the great Peiping-Tientsin-Paoing triangle of North China was secured for some time to come. The Chinese press carried government reports that the Communists suffered crippling losses in this week's fighting, including 12,000 in one 24-hour battle around Yaotungcheng, 20 miles north of Paoing.

Senate Considers Proposal On Community Tax Expansion

Albany, N. Y., Feb. 20 (AP)—Widely expanded taxing powers for cities and villages were proposed in a bill introduced in the Senate at the request of the New York State Conference of Mayors.

Offered by Senator Chauncey B. Hammond, Elmira Republican, the measure would authorize cities and incorporated villages to impose local taxes on:

1. The use, sale, exchange, transfer or storage of tangible personal property.
2. The privilege of doing any business, engaging in any trade, calling, occupation, profession or vocation; owning, holding or occupying any property; possessing any franchise, or on the gross receipts from sales within the localities.
3. Utility services, except railroads, to be paid by the consumer.
4. Occupancy of hotel rooms and apartment hotels.
5. Amusements.
6. The privilege of doing business, measured by the amount paid out in salaries or wages.

Conference Held First

shortage of railroad box cars, President Truman said today.

He made this comment when asked at a news conference whether the box car shortage had been brought to his attention. He said it had, that it was a vital problem and he was doing everything to alleviate it.

Business men have testified at Senate hearings that industry is threatened with virtual collapse unless the supply of cars is increased. Grain operators from midwest particularly have been demanding relief.

side more than seven months of the year would be considered a non-resident.

Final determination of the amount of any tax payable would be subject to court review upon application.

The bill stipulates that taxes can not be levied on sales, services or transactions involving the state, its political subdivisions, charitable or religious associations or the federal government.

Revenue from the proposed taxes could be used for "any municipal purpose."

The act would take effect immediately upon the governor's signature.

Boxing Bouts Here Tonight; Maroons Set for Vital Tilt Friday

Morton vs. Jenkins Headlines Fistic Bill at Auditorium

Full House Is Expected to Witness Seven-Bout Show; First Fight Starts at 9 P.M.

This is boxing night in Kingston and another sellout throng is expected to jam the municipal auditorium to attend Brian Brith's show headlined by the return welterweight bout between Eddie Morton, Albany, and Ike Jenkins, New York city. The first bout will go on at 9 p.m.

The advance ticket sale of reserved seats indicates an S.R.O. crowd. Mr. Murray Green, ticket chairman, announced Wednesday and reservations have continued to pile in.

The Morton-Jenkins bout has been brought to Kingston by popular demand after the Albany better decisioned Jenkins in the Poughkeepsie ring a couple of weeks ago. Morton, who is rated by local ring fans as one of the most improved boxers to appear here, should have a big following tonight as he tries to make it two in a row over the New Yorker.

In another five-rounder attracting attention is the bout featuring Mike Sallie, Schenectady welter, and Dave Edwards, another New York leather-puncher. Sallie won a Pler Six bruising fight over Oliver Phillips, Buffalo, on the February 6 card. Edwards holds victories in the Kingston ring over Eddie Morton and Jim Kennedy.

Jimmy Carr, Albany heavy-weight, makes a return visit when he boxes Bob Yardboro, Rome, central New York state champion. Yardboro will fight under the direction of Tony Storace, who piloted his brother Cozy to the national welterweight title in 1939.

Another Rome pugilist, Al Hurlbut, who is recognized as the central New York middleweight titleholder, is paired with Frankie Clark, New York city, for five rounds tonight.

One of the three round prelims will feature Kingston's Dave Brandon and Freeman Hurlbut, Rome middleweight.

Softball Players Sought
A call for all interested softball players has been sounded by Forin Coughlin in preparation for the summer season. Anyone interested is asked to call 1934-J between 5 and 7 o'clock within the next few days. A meeting will be called in the near future to draw up definite plans.

Big Week-End Is Planned for Pine Grove Ski Resort

New Junior Hill Opens Saturday at 3 P.M.; Dance Also Slated; Exhibitions Sunday

With a full week-end of activity planned, the Pine Grove ski land at Phenicia will be officially opened Saturday afternoon, Washington's Birthday, starting at 2 o'clock. A tournament is planned for the opening day with Frankie Clark, New York city, for five rounds tonight.

One of the three round prelims will feature Kingston's Dave Brandon and Freeman Hurlbut, Rome middleweight.

The mammoth program has been arranged by Harold E. Ring, owner and operator of the Catskill resort. Mr. Ring, who conducts a ski store in New York city, said today that he expects a gala turnout for the big week-end of sports and entertainment.

Mr. Ring advised that adequate provisions of preserved snow will be available for the ceremonies despite the present lack of it. "Sufficient snow to warrant the opening of the junior ski jumping hill will be on hand," Mr. Ring promised.

Al Tokie, elder brother of the late Torgie Tokie, who is now residing in High Falls, will officially start the tournament which is open to the public. Al also is the brother of Kyre who placed first at Bear Mountain last Sunday. Jumps of up to 110 feet are possible on the new hill and a number of outstanding skiers will participate.

The Skiers' Ball will take place at the Phenicia Hotel Saturday afternoon starting at 8 o'clock.

Exhibitions of downhill and slalom skiing by well-known competitors will take place Sunday afternoon starting at 1 o'clock.

MacMitchell Won't Defend His Title

New York, Feb. 20 (AP)—Leslie MacMitchell of the New York Athletic Club will not defend his title in the mile run at the National A.A.U. indoor track and field championships here Saturday night.

Instead, the former New York University star will start in the 1,000-yard run in an effort to help the New York A. C. collect as many points as possible toward the team title it will be defending. He said he felt he had a better chance of winning the 1,000 than he would have in the mile, where Gil Dodds is a top-heavy favorite.

Hawaii Opens Tonight

New York, Feb. 20 (AP)—Hoping for the best but eager to make a good showing above all, a small university of Hawaii basketball team opens an eight-game tour tonight against St. John's of Brooklyn in Madison Square Garden. The Hawaiians won all of their 21 games against amateur clubs and U. S. service outfits—they don't have any other colleges to play against—but they admit that in St. John's they will be facing their toughest opposition. The Redmen of Brooklyn have run hot and cold this season and right now they are on a four-game winning streak and have an 11-6 record. Height will be the visitors' main problem. Their tallest man is 6-4, and they average 5-10½.

Three Giants Are Ill

Phoenix, Ariz., Feb. 20 (AP)—Three members of the New York Giants squad have reported for spring training here. First baseman Johnny Mize has a stiff neck as a result of a cold, pitcher Bill Ayers developed a skin rash on his right shoulder, and southpaw Monte Kennedy had a painful blister on his right index finger. Manager Mel Ott scheduled batting practice today, announcing that the pitchers would be allowed to participate, with Ott and Coach Red Kress doing the flinging.

Increased Fees Bill Is Before Assembly

Albany, N. Y., Feb. 20 (AP)—Proposals to increase hunting and fishing license fees were introduced today in the Assembly as companion measures to bills submitted earlier to the Senate.

The Assembly measures, sponsored by Assemblyman D. Mullory Stephens, Putnam Republican, would:

Increase single license fees from \$1.65 to \$2.25.

Increase combined hunting and fishing license fees from \$2.25 to \$3.75.

Require fishing licenses for women.

Create a new "big game" license, covering the taking of both deer and bear.

Boston Would Have Bout With Either Rocky, Robinson

Report Follows N.B.A. Act Granting Banned Men Sanction Outside New York

Boston, Feb. 20 (AP)—At least one boxing promoter hereabouts is eager to have either Rocky Graziano or Sugar Ray Robinson, or both, come here to fight if the Massachusetts Boxing Commission sides with the N.B.A.

The National Boxing Association yesterday gave both boxers permission to box in its territory, refusing to uphold the ban put on the pair by the New York State Commission.

What action might be taken by the Massachusetts Commission had not been determined.

Leo Conlon, commission secretary, says that no suspension notices concerning either Graziano, middleweight title contender, or Welterweight Champion Robinson, have been received from New York.

"Though we do join hands with New York," said Conlon, "the agreement includes a phase of 'right of review in all cases' and it is thoroughly within our jurisdiction whether or not we deem the suspensions too severe or unjust."

It also was pointed out that neither suspended fighter has a license to fight in Massachusetts.

Rip Valenti, matchmaker for the Goodwin A. C., said he probably would offer both men engagements here.

Graziano's New York license was revoked for an unspecified period for failure to report a \$100,000 offer to throw a fight.

Robinson received a 30-day suspension and was fined \$500 for failing to report an offer of \$25,000 not to meet the required weight for a fight.

Three Are Nominated

San Juan, Puerto Rico, Feb. 20 (AP)—Three right-handers, veterans Allie Reynolds, Floyd Beveis and rookie Frank Shea, have been nominated by Manager Bucky Harris to twirl in the New York Yankees' first exhibition game against a local all-star squad Saturday. Harris revealed his mound selections after expressing astonishment at the condition of the squad. "In all my years in baseball I've never seen a squad in such good condition so early," he said.

Local Cagers Will Play Middletown At Latter's Court

Kingston High School's chances of winning the second half title in the DUSO League basketball race definitely hinge on Friday night's all-important battle with Middletown High at the latter's court.

Middletown, one of the two league clubs which has beaten Kingston this season, still stacks up as a definite threat despite its three losses in four games during the second round. Middletown nipped Kingston here earlier in the season in overtime, 45-43.

Second Half Title Hopes Hinge on Outcome of Game; Kiammen Seek Ninth Win in Row

Kingston High School's chances of winning the second half title in the DUSO League basketball race definitely hinge on Friday night's all-important battle with Middletown High at the latter's court.

Middletown, one of the two league clubs which has beaten Kingston this season, still stacks up as a definite threat despite its three losses in four games during the second round. Middletown nipped Kingston here earlier in the season in overtime, 45-43.

Set for Task

Kingston, riding on an eight-game winning streak, four of them over loop foes, must get by Middletown if it hopes to come home with the bunting. The local quintet, which clipped unbeaten Liberty a couple of weeks ago, appears set for the task.

Since trimming the vaunted Liberty machine here the forces of C. Warren Kias have added Poughkeepsie and Beacon to their list of victims. Middletown, on the other hand, has slipped to near-oblivion proportions after making a splendid first half showing. Middletown reached further depths last week by losing to Newburgh.

Odds on Friday's vital tilt ride on Kingston which has a better scoring record for the year. The Maroons have scored 440 points in their eight games. Middletown, in nine loop contests, has collected 376.

Paced by the DUSO League's ace scorer, Eddie Weaver, the Kiammen are rolling along at an average of 55 points per game in those eight tilts. Weaver, hitting the hoop for 21.4 markers per game, has collected 172 and appears a cinch to reach the 200 marks for the complete season. Middletown's average score per game is 41.7.

Glaser May Start

Coach Kias' starting five against Beacon Tuesday found George Glaser working with Mike Rizzo at forward and this may be an indication for tomorrow's lineup. Glaser, who has not seen too much league service thus far, still rates as one of the best on the local roster. If Glaser doesn't start it will be Kenny Lowe.

Joe Albany and Bobby Ghear again expected to start at guards. Both have improved with, every game. Albany's play has been so

Championships Scheduled

Lake Placid, N. Y., Feb. 20 (AP)—Ace two-man bobsled crews lined up today for the North American championships on Mt. Van Hoevenberg, last of a series of events used as the basis for selection of the 15 members of the 1948 U. S. Olympic team. Defending two-man champion in the North American is Tuffy Latour of the Saranac Lake bobsled club. The four-man heats in the North American are set for Saturday.

Bull Brings \$4,000

Chicago, Feb. 20 (AP)—The grand champion bull of the Annual Aberdeen-Angus Breeders Association Stock Show, El-Jon Eric, of El-Jon Farms, Rose Hill, Ia., was sold yesterday for \$4,000 to Brarliff Farms, Pine Plains, N. Y. At the auction of the reserve champion bull, Eric Baron 4th, owned by Roy H. Kline, Bussey, Ia., brought \$3,700, bid by Hagan Farm, Poughkeepsie, N. Y. The 39 bulls sold averaged \$1,135 apiece.

Christmas Tree Sale

Albany, Feb. 20.—Sale of New York State Conservation Department Christmas trees, bearing the familiar red and silver tag of the department, brought a record sum of more than \$20,370 during the 1946 holiday season. William G. Howard, director of Lands and Forests, reported today. There were 54,944 trees sold, about 11,000 less than in the peak year of 1943 but higher prices topped that year's figures by \$5,844, bringing the grand total for the last seven years to well above \$86,000. Scotch pine was the overwhelming favorite at 21,741, while spruce second at 17,361 closely followed by Norway Spruce at 15,996. Red pine, balsam and white pine, in that order, were also runners, according to the report.

Corporate structures built by the American Romans are still in an excellent state of preservation.

THREE GRAND MEALS EVERY DAY

FROM GRAND UNION HOME-MAKERS SERVICE

LENTEN FOOD FARE

The Lenten season means meatless meals for many of us. Tasty, appetizing menus, however, can be planned around main dishes of fresh fish, fresh vegetables, canned foods, macaroni and spaghetti, rice and a variety of other meatless foods.

Here's an easy-to-prepare Lenten meal made from canned foods:

Entrée—Complete Meat Casserole
1 pkg. noodles (8 oz.) 1 can asparagus 1 can tuna (13 oz.) (No. 2 can) 1 can mushroom soup 1 cup crumbled cornflakes (10 oz.) Salt & Pepper to taste

Arrange cooked noodles, tuna, and asparagus in alternate layers in greased 1 1/2 quart casserole. Season with salt and pepper. Combine mushroom soup with milk and pour over the noodle mixture. Top with crumbled cornflakes. Bake in moderate oven (350° F.) 30 to 40 minutes. Serves 4 to 6.

Saled—Tomato Aspic-Avocado
It's the avocado that adds that something "plus" to tomato aspic. Soften 1 tablespoon unsifted gelatin in 1/4 cup cold water. Combine with 1 1/2 cups canned tomato juice, heated to boiling. Add 1 tablespoon onion juice and 1 teaspoon salt. When partially congealed, add one avocado, peeled and cubed. Pour into mold and chill until firm. Garnish with salad greens and serve with mayonnaise.

Desert—Peach Crumb-Topped Delight
A delicious dessert quickly! Arrange drained canned peaches in shallow baking pan and cover each peach with a thin slice of orange. Sprinkle with juice of one lemon and 1 cup of crumbled cookie crumbs. Sprinkle lightly with brown sugar, dot with butter and bake in moderate oven for 30 to 40 minutes. Serve topped with whipped or ice cream.

L.I.U. Cage Team Seeks Fourth Bid To Annual Tourney

Famous Blackbirds, Clair Bee Will Appear at Clinic in Monticello Monday, March 10

Basketball fans of Ulster, Dutchess, Orange and Sullivan counties may see one of the participants in the National Invitation Tournament when Clair Bee and his Long Island University five appear in Monticello Monday, March 10, in a special basketball clinic.

Judging from latest reports the highly-flying Blackbirds will be issued an invitation if they can reverse two defeats suffered earlier in the season. So far, L.I.U. has taken care of one of these obstacles by turning back Canisius, 68-52, in Madison Square Garden this week. Now the Blackbirds must even the score with Muhlenberg who defeated the New Yorkers by a mere two-point margin at Allentown, Pa. This second tilt is set for March 5.

The invitation will not be the first that L.I.U. has received. In 1939 the Blackbirds won the tournament and repeated again in 1941. In 1942 they were eliminated by West Virginia, tournament winners.

In addition to the demonstration and lecture, a scrimmage is being arranged with one of the Monticello teams.

Tickets and further information are available at the Monticello Community Center or by calling Victor W. Gordon, Monticello 541.

Better Bowling

By RILEY SIXTY

CHECK THE GRIP: At the first sign of a pain in the knuckles of your middle finger (two fingered ball) or the middle and third fingers (three-fingered ball), check your grip. Do it immediately, because it doesn't take long for the fingers to give out. Delivery of only a few balls can put them out of commission for weeks; yes, for an entire season.

Knuckle trouble results (1) from tight finger-holes (2) too much pitch, or (3) a narrow span. Tight finger-holes cause the ball to HANG ON and the fingers are twisted to cause injured tendons or knuckle bruises. Finger-holes should be snug, but not tight, which goes as well for the thumb-hole.

Finger-holes drilled at too much of an angle, or pitch (illustration A) also cause a delayed release of the ball and put unnecessary and wearing pressure on the fingers. Bowlers who increase the pitch in the ball to overcome dropping it will do better to widen the span instead.

When the grip is too narrow (illustration B), sore knuckles are inevitable because (1) the ball must be pinched to hold it, putting pressure on the fingers or (2) the fingers are buried so deeply in the holes that the second knuckles are strained.

Mylin to Use Former Pupil as Violet Coach

New York, Feb. 20 (AP)—E. E. (Toots) Mylin, new head football coach at New York University, is bringing his former pupil at Bucknell and one-time assistant at Lafayette to the Violets' coaching staff.

N. Y. U. announced today the appointment of George L. McGaughey of Vandegrift, Pa., as line coach. McGaughey played under Mylin when the new N. Y. U. coach was at Bucknell. He was Mylin's line coach at Lafayette from 1937 through 1941 and then coached the line at North Carolina State in 1942. He secured the largest capacity at Wakeham College last year after three years in the navy.

Louis Puchez Godoy Groggy in 6-Rounder

Santiago, Chile, Feb. 20 (AP)—With a crowd of 30,000 shouting "Take it easy, Joe!" Heavyweight Champion Joe Louis punched Arturo Godoy groggy in a six-round boxing exhibition last night at the Estadio Nacional. Louis weighed 207 to 198 for Godoy, appearing in his native country for the first time since 1944.

Godoy was knocked down in the third and sixth rounds and was so groggy in the second that he accidentally landed a right haymaker on the jaw of Luis Angelo Firpo, former heavyweight contender from Buenos Aires, who was the referee.

Another Eddie Stanky
Joe Scheldt, an outfielder who will be receiving a trial with the Phillies this spring, was the "Eddie Stanky" of the Inter-State League last year. He sat a new record for the circuit in working pitchers for bases on balls with 124.

Court Rules Children Will Get Some Cash

White Plains, N. Y., Feb. 20 (AP)—By court order, part of Beau Jack's purse for his ten-round bout with Tony Janiro here tomorrow night will go to the support of his three children.

The former lightweight champion was summoned to Westchester Children's Court yesterday to answer a charge of non-support.

Judge George Smyth ruled that \$2,500 be withheld from Jack's purse for their support.

The children—six-year-old twin boys and another four-year-old boy, live with a grandmother in New Rochelle, N. Y.

Cornell Is Second

Albany, N. Y., Feb. 20 (AP)—Cornell's Big Red held undisputed possession of second place in the Eastern Intercollegiate Basketball Conference today, after trouncing Princeton, 53-30, last night in Ithaca. The Big Red boosted its conference mark to five won and three lost, a half-game better than Pennsylvania which is not scheduled this week. Undefeated Columbia is the league leader. Meanwhile, the Syracuse Orange suffered its third defeat of the season, against 16 victories, losing to St. Joseph's of Philadelphia despite 24 points bucketed by Billy Gabor of Binghamton who took scoring honors for the night.

Eastern League Games Will Open in April

Williamsport, Pa., Feb. 20 (AP)—Following its customary 140-game schedule, the Eastern League opens its 1947 baseball season April 23. President Thomas H. Richardson announced.

The season ends Sept. 7. All clubs have been allotted 10 Sunday games, with Hartford (Conn.), Binghamton and Elmira, N. Y., at home both Memorial Day and Labor Day and with Williamsport (Pa.), Utica and Albany, N. Y., getting "the Four of July" nod.

The four clubs playing at home on opening day are Scranton (Pa.), playing host to Wilkes-Barre (Pa.), Hartford (Conn.), Elmira at Williamsport and Binghamton at Utica.

State Badminton Tourney Opens in Albany March 22

The fifth annual Eastern New York State Badminton Tourney will be held at the Jewish Community Center, Albany, Saturday and Sunday, March 22 and 23, it was announced today.

As in former years the competition will be limited to three divisions, men's and ladies' doubles and mixed doubles. A consolation tournament for those eliminated in the first and second rounds will be held.

Wants Studious Gridders
East Lansing, Mich. (AP)—Forest Evashevski, Michigan State college's new backfield coach, wasted little time in getting started. Reporting for the first time, Evashevski brushed by the receptionist's desk and passed directly into the office of Athletic Director Ralph H. Young where he asked: "Where's the eligibility sheet?" He explained that he simply wanted to know if all the boys were up on their studies.

Of Crack Express

Altoona, Pa., Feb. 20 (AP)—A three-way investigation was under way today to determine why the Pennsylvania Railroad's "Red Arrow" passenger train plunged off a trestle bridge Tuesday bringing death to 22 persons, with three men still unaccounted for.

The Interstate Commerce Commission and the Pennsylvania Public Utility Commission sent their rail crash experts to the scene to work with P.R.R. officials in investigating the wreck of the Detroit-New York flyer.

Youth Who Posed
As 'Cooch' Dancer
Faces Jewel Court

Fairhaven, Mass., Feb. 20 (AP)—A 17-year-old youth, who allegedly posed successfully enough as a girl to be accepted as a domestic in a wealthy New York home and as a "cooch" dancer in a carnival, today was held pending extradition to New York on jewel theft charges.

State Police Detective Herbert Hales said the youth, booked as Albert H. Cook, of Fairhaven, admitted orally the theft of \$25,000 worth of jewelry from the home of K. A. Zilkha, New York city, while serving as a domestic last August.

Police Chief Norman D. Shurtleff quoted Cook as saying that he flew to Chicago with the jewelry and on one occasion hired a private detective to protect him and the gems while he went to a dance.

The chief reported that the jewels were pawned in Chicago, New York, Boston and southern cities and that as far as he knew they had not been recovered.

He said that the youth told him that he donned a wig, filled out his figure with false forms and roamed the Atlantic seaboard as a girl for six months, sometimes using the name of a cousin and high school girl friends.

Shurtleff reported that Cook said he joined a carnival in Tennessee as a "cooch dancer" and stayed with the show until it got to Lake City, Fla., where he switched back to male clothes and returned to Fairhaven recently.

Colorado has 4,426 miles of railroad.

74 Training Centers
Washington, Feb. 20 (AP)—The Senate committee on the armed services yesterday approved Navy Department plans for construction of naval reserve training centers in 44 cities in 16 states. Chairman Gurney (R-S.D.) said these centers would average \$150,000 in cost and be built from war surplus, with funds already voted the navy by Congress. The centers approved by the Senate Committee included Albany and Poughkeepsie, N. Y.

How to Hold
FALSE TEETH
More Firmly in Place
Do your false teeth annoy and embarrass you when you eat, laugh or talk? Just sprinkle a little FASTERE on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gum, no sticky taste or feeling. Does not sour. Checks "halitosis" (bad breath). Get FASTERE today at any drug store.
